In operations since 1865, the Shapoorji Pallonji Group of Companies has grown to become a large business conglomerate. Over time, it has evolved and grown exponentially into multiple business segments with over 60,000 employees operating in more than 20 sectors.

From being a company that was mainly focussed on mechanical, electrical and plumbing (MEP) engineering in India, over the past 5 years Sterling and Wilson has set up global operations of diesel generation sets, gas based power plants, waste to energy, turnkey data centers, transmission & distribution and solar EPC.

PBES, Sterling and Wilson Partnership
The PBES and Sterling & Wilson partnership agreement brings together the primary owners of Sterling and Wilson and PBES. The agreement provides a vehicle to stabilize PBES and move the company forward in its marine electric and hybrid energy storage business.
PARTNERS OVERVIEW

Sterling and Wilson is owned by the Mistry and Daruvala families and operates in 6 core business units including:

- Diesel generators
- Industrial Mechanical Electric Service Co – leading MEP in India – active in Africa, Middle East as well as India
- Cogeneration & Microgrid – installed over 1,800 MWh – that’s about the same size of ALL of the UK’s installed power generation capacity
- Substation design, engineering & supply services
- Turnkey data centers
- Hybrid and battery solutions – built largest battery installation in Africa (30 MWh)

SHAPOORJI PALLONJI MAJOR BUSINESS AREAS
